During springtime - when the maple tree sap has started to run - many Quebecers go to sugar shacks (cabanes à sucre) for a traditional meal that features eggs, baked beans, ham, and bacon, which they then cover in maple syrup. Associated activities are a horse-drawn sleigh ride in the woods and toffee on snow (tire sur la neige) — boiled maple syrup dribbled over snow, which then hardens, and is eaten as a treat.

Hosts Dave Jorgenson and Cheryl Macarthy have designed a restaurant, a menu and a mood that is relaxing, friendly, and exceptional. We've been evolving and refining our menu for 16 years now and its approaching perfection! In 2013 we've expanded again. We've introduced more Organic Foods, and containers, Frog-Friendly Coffee, and are now completely Green Energy Powered through an electrical agreement with BullFrog Power. We're introducing a wide variety of cool and unique gifts that reflect our themes of food, the outdoors, and music. We're constantly adjusting our micro-brew beer collection, BC wines, and selection of great Scotch! We've introduced new non-alcoholic drinks like the Bear's Paw Fizz and the Tropical Frog! Some things are too good to change, so our Amazing Rib Dinners and Fabulous Thai Noodle entrees are still to be found. Now we've added a tapas menu, so you can build the meal you want from all of your favourite parts!

Evening with Dave Jorgenson
